WORK EXPERIENCE

Code Whatever

April 2023 to December 2024

Instructor

- Host and planned weekly events
- Website maintenance,
- Help students with coding questions

PROJECTS

The Wisdom Dispenser | [Demo](#) | [Github Code](#) | (JavaScript, node.js, express, ejs, mongodb, dotenv, API)

- A full-stack web app that allows you to receive and share wisdom with random strangers on the internet. It uses a custom API I also built, check out the API [here](#).

The Wisdom Dispenser API | [Demo](#) | [Github Code](#) | (JavaScript, node.js, mongodb, express, dotenv, API)

- The Wisdom dispenser API provides a platform for managing quotes. Allows users to add, retrieve, update, and randomly fetch quotes by people. Enables easy integration into applications.

Random Facts | [Demo](#) | [Github Code](#) | (HTML, JavaScript, CSS, APIs, API)

- This project utilizes two APIs to provide users with random, useless facts.

Zine Idea Generator | [Demo](#) | [Github Code](#) | (HTML, css, javascript)

- Sometimes I want to create a zine but struggle to find a topic—this project was my solution to that creative block. It taught me a lot about sentence construction, and I had a blast designing it.

Portfolio site | [Demo](#) | [Github Code](#) | (html, JavaScript, CSS, bootstrap, github pages cPanel, and, formsubmit api)

- A portfolio site built from scratch to showcase projects.

Neo Cites | [Demo](#) | [Github Code](#) | (html, JavaScript, CSS, [Astro](#) for the static site generator, [calligraphr](#) for the font)

- My Neocities website is where I post blogs, art, helpful resources, and express creativity

EDUCATION

SUNY OLD WESTBURY
2022

February 2018 to may

- Bachelor in Computer Science
