Frameworks: bootstrap, node.js
Technologies: Git, Github, API

WORK EXPERIENCE

Code Whatever   **April 2023 to December 2024**
Instructor
- Host and planned weekly events
- Website maintenance,
- Help students with coding questions

PROJECTS

The Wisdom Dispenser | Demo | Github Code | (JavaScript, node.js, express, ejs, mongodb, dotenv, API)
- A full-stack web app where users can receive and share anonymous wisdom. Gets data from the The Wisdom Dispenser API (which I also made)

The Wisdom Dispenser API | Demo | Github Code | (JavaScript, node.js, mongodb, express, dotenv, API)
- Handles creating, updating, and fetching quotes, including a random quote endpoint. Perfect for integration into other projects or services.

Random Facts | Demo | Github Code | (HTML, JavaScript, CSS, APIs, API)
- A fun browser based app that pulls from multiple public APIs to deliver weird, useless, and interesting facts.

Zine Idea Generator | Demo | Github Code | (HTML, css, javascript)
- A creative tool made for zine makers who want inspiration. Generates random zine ideas using sentence logic and playful prompts.

Portfolio site | Demo | Github Code | (html, JavaScript, CSS, bootstrap, github pages cPanel, and, formsubmit api)
- A personal site built from scratch to showcase my work and projects. Includes GitHub integration, contact form, and responsive design. Hosted via GitHub Pages and cPanel.

Neo Cites | Demo | Github Code | (html, JavaScript, CSS, Astro for the static site generator, calligraphr for the font)
- My Neocities website is where I post blogs, art, helpful resources, and express creativity

EDUCATION

SUNY OLD WESTBURY   **February 2018 to may 2022**
- Bachelor in Computer Science
